RAIKA OFFICE FURNITURES

## Management furniture

## Central insurance

Coordinate the wall covering with the table to create a unified space

Concealment of connections and disassembly is one of the tricks of professional design

Concealment of connections and disassembly is one of the tricks of professional design

Colors give identity and gender, and using them consciously is our art

Coordination of interior design style and furniture is one of the features of our projects

**Conference Area**

Forecasting equipment and elements and usage to achieve a desired space

**Secretary area**

An attractive entryway is always memorable

Sometimes the space, dimensions and use determine the design style

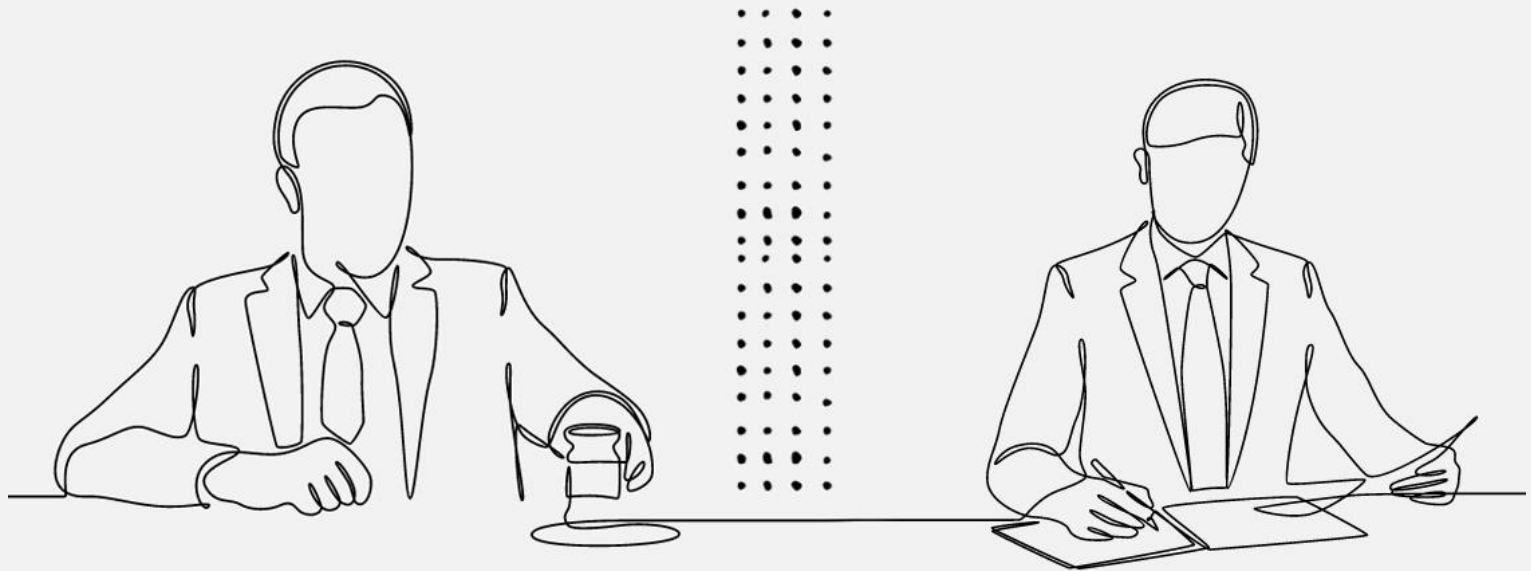

Partitions can stand out as a beautiful element in the space in addition to the separation role

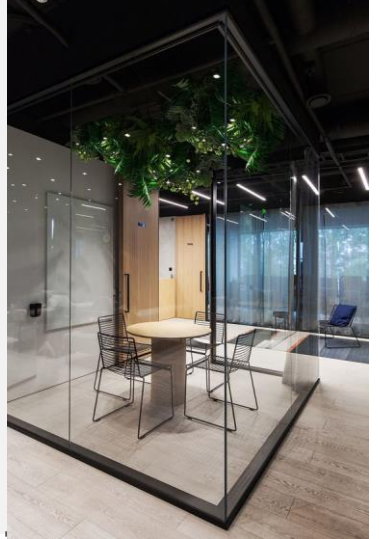

# Partition

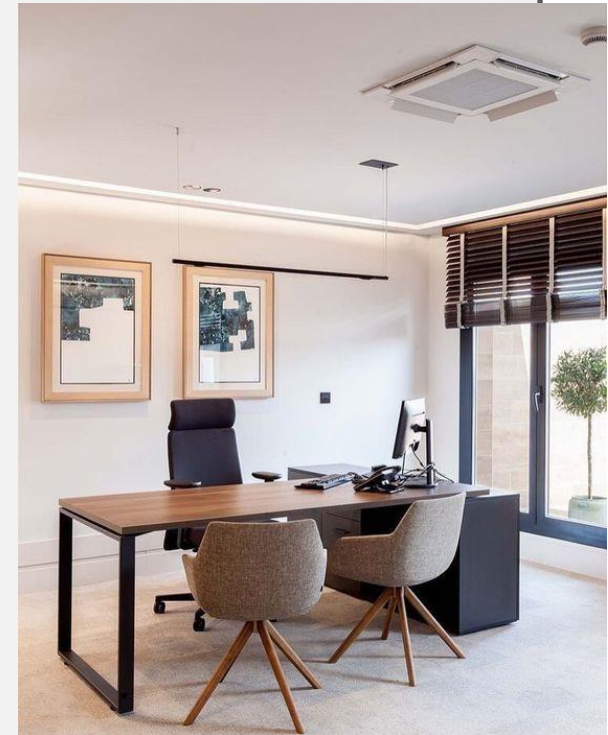

An open space provides the possibility of spatial separation according to our needs

**Working station**

**Mid manager desk**

Appropriate working space has a significant impact on employee productivity

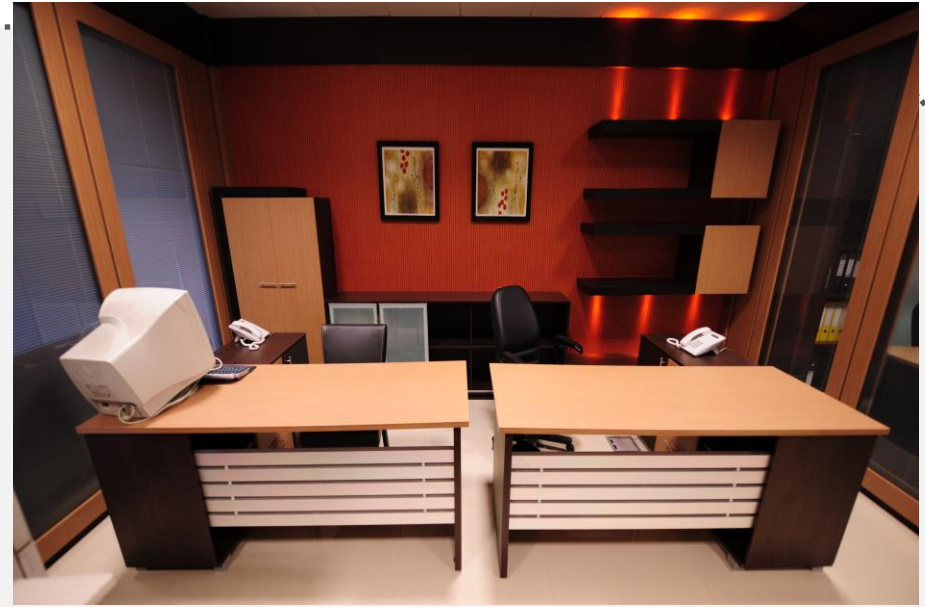

At present, the mini malist approach has affected interior design and then furniture design
